INTRODUCTORY

In presenting the thirty-third issue of the Sacramento City Directory, and by comparing it with the 1922 directory, the publishers feel that the city has made great strides in its growth, as well as in the number and variety of industries.

We desire to thank all who have contributed to the success of the work either by generous patronage or in co-operation in furnishing information to our enumerators. The information has been taken by men who are carefully trained in this work and we believe this directory will compare favorably with any previous issue.

POPULATION

The present volume contains by actual count **36,184** names, exclusive of married women and children, single women without occupation, and also Orientals, an increase of **738** names over 1922. Using the multiple of 2½, which is in general use by directory publishers, this gives an estimated population for **Greater Sacramento of 90,460,** an increase of **1,845** over 1922.

Respectfully,

SACRAMENTO DIRECTORY CO.

Sacramento Facts and Figures

HISTORY.

Sacramento is California's largest inland city and is the distributing center for a trade area which comprises the great Sacramento Valley and western Nevada. It is at the intersection of the great east and west overland route with the north and south lines which unite the Pacific Coast.

Sacramento had its origin in the decision of Captain John A. Sutter, a daring Swiss explorer, to establish a trading center and fort at the confluence of the American and Sacramento rivers, after an exploring expedition up the latter river in 1839. When he needed lumber, he established a sawmill at Coloma, on the American river, and here John W. Marshall, one of his employes, discovered gold on January 24, 1849. The world-wide gold rush which followed established for all times the permanence of Sacramento. A city government was organized in July, 1850, and in 1853 Sacramento became the permanent capital of the state. In 1863, work started in Sacramento on the Central Pacific Railroad, and following its completion in 1869 Sacramento soon became one of the most important railroad centers in the west.

The railroad construction and repair shops which were established soon after are the largest west of the Mississippi and constitute the principal industrial activity of the city.

GROWTH.

Sacramento has never passed through the inflated prosperity of a 'boom." Its growth has been steady and certain. The following table shows the steady population increase as reported by the United States census:

1850	6,820	1890	26,386
1860	13,785	1900	29,282
1870	16,283	1910	44,696
1880	21,420	1920	65,908

In the decennial period between 1910 and 1920, the city's official population increased 47.5 per cent.

The healthy increase in the business and civic enterprises of the city also reflect the underlying economic forces which are producing a steady growth. The following items are a few which show this growth:

GOVERNMENT.

Sacramento is under a city manager form of government, provided by a modern municipal charter which became effective on July 1, 1921. Legislative authority is vested in a city council of nine members, who are the only officials to be elected directly by the people. A mayor is elected by the council from among its own number.

Administrative authority is vested in the city manager, who is appointed by the city council. The city council also appoints the civil service board, the city attorney, police judge, clerk, treasurer and board of education. The board of education appoints the city superintendent of schools. All other city officials are appointed by the city manager.

The Sacramento city tax rate is $1.78 per $100 assessed valuation within the old boundaries and $1.69 in the annexed area. The Sacramento county tax rate is $3.16 inside the city limits and $2.46 in the rest of the county.

CLIMATE.

Sacramento has one of the most equitable climates in California and its mean summer temperature is 71.75 and its mean winter temperature is 47.75. Its mean yearly temperature is 60. The average monthly figures are as follows:

THE style of STRAUB clothes is attested, not by meaningless, pictorial accessories, but by the clothes themselves, which are the acme of perfection in cut, tailoring and finish.

The man who wears STRAUB clothes has mastered at least one branch of his expenditures, the golden art of getting more than an average equivalent for what he spends.

Straub TAILOR

919 K Street Sacramento

(SEE OTHER SIDE)

THERE is a big deal just ahead of every up-and-coming man who plays a part in business—there is promotion, bigger opportunity and friendly favor for the man who looks the part—success.

Dressing a man to look his best requires the help of a master tailor. Dignity becomes one, snappy style typifies another, and still other men are fittingly dressed only when the middle-ground is adhered to.

INDIVIDUALITY is worth a hundred times the few extra dollars that STRAUB clothes cost.

A WIDE SELECTION OF EXCLUSIVE PATTERNS AWAITS YOUR INSPECTION.

SACRAMENTO DIRECTORY CO'S

DIRECTORY OF HOUSEHOLDERS 1923

In the following list, the Streets, Avenues, etc., are arranged in alphabetical order without regard to location. The number of each building on the street is given in numerical order, and opposite the number is printed the name of the householder or householders. Houses that remained vacant at the close of the canvass have the word "Vacant" printed opposite the number. Houses with no numbers are not given. To find the occupation of householder, refer to the alphabetical list of names. For location of Streets, Avenues, etc., see page 9.

To phone a person whose name does not appear in the City Telephone Directory, look said person up in alphabetical section, ascertain the house number, refer to "Householders' Guide" for corresponding street and number and the householder or householders names appear, they being in phone book if there is a phone in the house. If no phone in the house neighbors on each side will be seen before and after name, also people opposite.
